UFO S ARE HERE TO STAY

Visitors from other worlds...

Who are they? Why are they here? What are they like?
Where are they from? Why don't they land more openly?

As UFO sightings appear to be on the rise, questions remain unanswered by governments, scientists and world religions. Moving beyond the "nuts-and-bolts" approach to the UFO phenomenon, Mark Bennett reveals the little-known truth about visitors

from other worlds and their vitally important message to Earth.

Mark is the co-author of *Prayer Energy* and the award-winning title *Gods, Guides and Guardian Angels*. In his work for The Aetherius Society – which was founded in 1955 by one of the world's most remarkable contactees, Dr. George King (1919-1997) – Mark has dedicated his life to cooperating with advanced extraterrestrial intelligences and helping to spread their message. He frequently appears on the radio and has written for a variety of magazines.
